

SHAIK MUNTHAJ

Oshawa, ON, Canada | +1 343 987 4354 | munthajshaik54@gmail.com

PROFESSIONAL SUMMARY

Data Analyst and Machine Learning Specialist currently pursuing a Master of Science in Applied Modelling & Quantitative Methods. Possesses a strong background in computer science, predictive modeling, deep learning, and full-stack web development. Experienced in designing end-to-end data processing pipelines, implementing machine learning models, and building scalable applications to solve complex quantitative problems.

TECHNICAL SKILLS

Languages & Frameworks: Python, R, Node.js, Express.js, Angular, PyGame, SQL

Data Science & ML: Machine Learning, Deep Learning (CNNs, Transfer Learning), Computer Vision (OpenCV), Data Preprocessing, Quantitative Analytics, Feature Engineering

Tools & Databases: MongoDB, Git, Data Visualization (Matplotlib, Seaborn), Big Data Analysis, Scikit-Learn, XGBoost, Pandas, NumPy

EDUCATION

Trent University

Peterborough, ON, Canada

Master of Science in Applied Modelling & Quantitative Methods: Big Data Analytics (GPA: 3.9)

Jan 2025 – Apr 2026

- Enrolled in a fully accredited program by the Council of Ontario Universities (COU), Universities Canada, and the Association of Commonwealth Universities (ACU).

Potti Sri Ramulu Chalavadi Mallikarjuna Rao College of Engineering

Vijayawada, India

Bachelor of Computer Science in Artificial Intelligence and Machine Learning (CGPA: 7.97)

Jan 2020 – May 2024

- Completed undergraduate degree under JNTU Kakinada University with specialization in AI and Machine Learning.

EXPERIENCE & INTERNSHIPS

Smart Bridge Educational Services

Andhra Pradesh, India

Artificial Intelligence and Machine Learning Intern

Oct 2023 – Apr 2024

- Executed a 6-month hands-on internship focusing on real-world AI/ML pipeline workflows.
- Preprocessed multi-modal datasets, developed predictive algorithms, and evaluated model performance metrics to optimize accuracy.

Indian Servers

Vijayawada, India

Machine Learning Intern

Oct 2022 – Dec 2022

- Built a deep learning diagnostic model using Convolutional Neural Networks (CNN) and Transfer Learning for COVID-19 detection from X-ray imagery.
- Converted lung X-ray image scans into numerical array format using OpenCV to extract key visual features for classification algorithms.

Brainovision

Vijayawada, India

MEAN Stack Technologies Intern

Jun 2023 – Jul 2023

- Developed full-stack web applications using MongoDB, Express.js, Angular, and Node.js.
- Architected RESTful API endpoints and integrated NoSQL databases to support dynamic user interfaces.

PROJECTS

Ontario Affordable Housing Delivery Analysis | Python, Scikit-learn, XGBoost, Pandas

Jan 2026 – Apr 2026

- Processed 13 years of Service Manager Annual Information Returns (SMAIR) data across 47 municipal managers (610 observations) to analyze RGI assistance delivery methods.
- Built and evaluated Linear Regression, Random Forest, and XGBoost models to explain regional differences in housing delivery; achieved an R^2 of 0.708 ($R^2 = 0.803 \pm 0.061$ in 5-fold cross-validation) with Random Forest.
- Performed feature importance analysis revealing structural housing stock size (41.6%) and budget capacity (40%) as primary drivers of regional policy decisions over temporal trends (2.0%).

Cryptocurrency Prediction & Recommendation System | Python, Machine Learning, Time-Series

Jan 2024 – Mar 2024

- Engineered a trade recommendation engine combining statistical time-series models and traditional machine learning algorithms on real-time market data.
- Implemented feature engineering techniques to extract key financial indicators, improving trade signal confidence.

COVID-19 Detection Using X-Ray Medical Imagery | Python, OpenCV, CNN, Transfer Learning

May 2022 – Dec 2022

- Trained and fine-tuned a CNN image-classification pipeline with OpenCV-based image preprocessing to process lung scan data.

- Applied pre-trained transfer learning architectures to maximize diagnostic accuracy on limited image training samples.

Online Student Attendance & Grading Management System | *Full-Stack, Databases* Jun 2022 – Jul 2022

- Designed a web portal to automate manual paper-based attendance tracking, streamlining academic administrative workflows.
- Developed frontend user interfaces, backend logic, and database schema supporting real-time grade updating and student monitoring.

CERTIFICATIONS

|

Problem Solving Using Computational Thinking – Authorized by University of Michigan (Mar 2022)

Problem Solving Using Computational Thinking – Issued by Infosys (Mar 2022)

Certification on Introduction of Cyber Security – Great Learning Academy (Mar 2022)

Certification on Introduction to Data Science – Great Learning Academy (Apr 2022)

Certification on Introduction to Management – Great Learning Academy (Apr 2022)

Certificate of Achievement: ChatGPT for Everyone – GUVI (ISO 9001:2015 Certified) (Oct 2023)

Certificate of Achievement: Game Development using PyGame – GUVI (ISO 9001:2015 Certified) (Oct 2023)

TCS iON Career Edge: Young Professional Course – TCS iON (Dec 2021)

LEADERSHIP & VOLUNTEER ACTIVITIES

|

Rotaract Club Member: Engaged in community leadership initiatives, ethical standard development, and service projects.

Volunteer Coordinator: Coordinated volunteer operations and crowd management activities at Durga Temple, Vijayawada.
